ADANGI SAI RAMYA

Data Science & Full Stack Developer

+91 9347669203 | ramyaadangi@gmail.com | linkedin.com/in/sairamyaadangi | github.com/ramya-adangi

PROFESSIONAL SUMMARY

Motivated B.Tech Computer Science student (CGPA: 8.67) specializing in Data Science, with hands-on experience in full stack web development, RESTful API design, and database management. Proven ability to build and deploy applications using Python (Flask), React, Node.js, and MongoDB. National Hackathon Finalist and top 1.33 percentile performer in Naukri Campus Young Turks 2025. Seeking a challenging internship or entry-level role to apply technical expertise and deliver measurable business impact.

TECHNICAL SKILLS

Languages: Python, Java, JavaScript

Web Technologies: HTML5, CSS3, React.js, Node.js, Express.js

Frameworks: Flask, FastAPI,

Databases: MySQL, MongoDB

Data & Analytics: Pandas, NumPy , Power BI

Tools & Platforms: Git, GitHub, JWT Authentication, REST APIs, MS Office, MS Excel , Cloud Deployment

Soft Skills: Problem Solving, Team Leadership, Communication, Time Management, Agile Collaboration

EDUCATION

Bachelor of Technology in Computer Science (Data Science)

Vignan's Institute of Engineering for Women | 2023 – 2027 | CGPA: 8.67 / 10

Board of Intermediate Education (Class XII)

Sri Chaitanya Junior College | 2021 – 2023 | Percentage: 90.8%

Board of Secondary Education (Class X)

The Sun School | 2021 | Percentage: 100%

INTERNSHIP EXPERIENCE

Power BI Intern | K-Square Company | Present

Built dynamic Power BI dashboards using Power Query, DAX, KPIs, and interactive visualizations (charts, slicers, matrices, and drill-through) for business reporting, strengthening expertise in Business Intelligence, data modeling, and dashboard design.

Python Full Stack Development Intern | Infosys (Virtual) | *Dec 2025 – Feb 2026*

- Completed Infosys's flagship internship program covering frontend, backend, database integration, and cloud deployment with industry-level training.
- Built and deployed full stack web applications using React.js (frontend), Node.js/Express.js (backend), and MongoDB (database) with JWT-based authentication.
- Gained hands-on exposure to industry best practices including RESTful API design, secure authentication workflows, and modular code architecture.

Virtual Full Stack Developer Intern | Independent / Open-Source (Virtual) | *Jun 2025 – Jul 2025*

- Developed and maintained 3+ responsive web applications using HTML, CSS, JavaScript, and Python (Flask/Django), improving UI responsiveness across mobile and desktop.
- Designed and integrated RESTful APIs connected to MySQL databases, reducing data retrieval latency by optimizing query structure.
- Implemented user authentication and security features; deployed applications to cloud platforms ensuring 99%+ uptime.

PROJECTS

Modern Digital Banking Web Application | Solo Developer | *Dec 2025 – Feb 2026*

- Engineered a secure, full stack digital banking platform using React, Node.js, and Express serving core banking functions including fund transfers and account managements

- Designed and built REST APIs handling 5+ banking operations (fund transfer, balance inquiry, transaction history) integrated with MySQL/MongoDB.
- Achieved fully responsive design across all device breakpoints, ensuring seamless UX on mobile and desktop.

Smart Agriculture Information System | Full Stack Developer (Team of 4) | *Jul 2025 – Aug 2025*

- Developed a farmer-centric web platform delivering real-time crop, irrigation, fertilizer, and pest control insights, targeting 100+ low-tech rural users.
- Integrated an AI-powered voice assistant with multilingual voice/text search, reducing language barriers and improving platform accessibility by ~40%.
- Built end-to-end Flask backend and responsive frontend UI, cutting manual information lookup time for farmers significantly.

Maternity Care System | Backend Developer (Team of 4) | *May 2025 – Jun 2025*

- Architected a web-based maternity healthcare platform using Flask and MongoDB, supporting features for 4 core services: diet prediction, telemedicine, hospital booking, and ambulance tracking.
- Designed and implemented RESTful APIs for doctor consultation and secure user data handling, reducing response time through backend optimization.
- Integrated multilingual support, expanding platform accessibility for rural users with limited English proficiency.

CERTIFICATIONS

- Naukri Campus Young Turks 2025 – Certificate of Merit (98.67 Percentile, Top 1.33% Nationwide)
- Database Management System – NPTEL
- Python Programming – Infosys Springboard
- SQL (Basics & Intermediate) – HackerRank
- Python for Data Science – Rice University via Coursera
- GenAI-Powered Data Analytics Job Simulation – TATA
- Data Analytics Job Simulation – Deloitte
- Oracle Cloud Infrastructure 2025 Certified AI Foundations Associate - Oracle

ACHIEVEMENTS & LEADERSHIP

- HackHers 2025 – National Hackathon Finalist: Led a 4-member team through 3 qualifying rounds in a nationwide competition.
- Naukri Campus Young Turks 2025 – Achieved 98.67 percentile nationwide; awarded Certificate of Merit for academic and technical excellence.
- Lead – Geeks for Geeks Student Chapter, Vignan's Institute of Engineering for Women.
- Club Coordinator – Techrithi & Samskrithi Clubs, VIEW College (2025–2026).
- Member – Code Infinity Technical Club, VIEW College.
